WELCOME ADDRESS

Dear colleagues and partners,

Dear friends,

We are pleased to welcome you to the **9th Seminar on tendon & nerve transfers of the upper limb on fresh frozen cadaveric specimens** which takes place on **April 4th - 6th, 2024**, in Thessaloniki, Greece.

The Seminar is organized by the **Orthopaedic & Traumatology Association of Macedonia and Thrace** in cooperation with the **1st Orthopaedic Department of Aristotle University of Thessaloniki, "G. Papanikolaou" General Regional Hospital**.

Continuing the series of successful Tendon Transfer Seminars, this one aims to provide you with a reliable toolbox of operations and techniques that can be applied at a variety of hand injuries as well as at tetraplegic patients.

The Seminar refers not only to hand surgeons but also to trauma specialists who wish to enrich their knowledge on reconstructive hand surgery. Under the guidance of our international and national faculty, you will have the chance to practice techniques you already know, learn algorithms to deal with hand injuries, the basic principles of tendon transfers and also get answers to any questions you might have. There will also be plenty of opportunity to catch up and exchange experiences.

The Seminar features five theoretical Sessions for the main tendon and nerve transfers for radial, ulnar and median nerve palsy followed by practical workshops on cadaveric specimens after each Session. The theoretical part of the Seminar will be held at the Teloglion Fine Arts Foundation while the educational program on fresh frozen cadaveric specimens will take place at the Laboratory of Anatomy and Surgical Anatomy of AUTH.

As hosts and organizers we shall spare no effort in making your participation scientifically rewarding and as meaningful as possible.

Thank you for your active participation.

Sincerely Yours,

The President of the Seminar
Dr. Lamprini Katranitsa

Orthopaedic Surgeon
Thessaloniki, Greece

The Honorary President of the Seminar
Prof. Panagiotis Givissis

Professor of Orthopaedics AUTH
Director of the 1st Orthopaedic Department

SCIENTIFIC PROGRAM

Thursday, April 4th 2024

Teloglion Foundation of Fine Arts

09:00	Registrations
09:30 - 09:40	Greetings - Opening Speech
09:40 - 10:30	SESSION I (THEORY 50 min) Chairmen: L. Harhaus, P. Givissis
09:40 - 09:50	Nerve biology and suturing techniques A. Bordianu
09:50 - 10:00	Tendon biomechanics and suturing techniques N. P. Sachinis
10:00 - 10:10	Tendon adhesion and management Z. Tzimirata
10:10-10:20	My experience in tendon lesion reinforcement in upper arm with Dermacell G. Bertasi
10:20 - 10:30	Tendon transfer principles P. Givissis
10:30 - 11:00	Coffee break
11:00 - 11:15	<i>Transfer to Laboratory of Anatomy & Surgical Anatomy AUTH</i>

13:30 - 15:00

Lunch break

15:00- 16:00

SESSION IV (THEORY 50 min)

Chairmen: **N. Darlis, T. Tickunas**

15:00 - 15:10

Tendon transfers for secondary treatment of paralysis in brachial plexus injuries

M. Vekris

15:10 - 15:20

Surgical joint denervation and neuroma treatment-easy and effective

A. Gohritz

15:20 - 15:30

Repair of iatrogenic median nerve injuries after endoscopic carpal tunnel release

N. Darlis

15:30 - 15:40

Nerve transfers to restore intrinsic muscle function of the hand

N. Zagoreos

15:40 - 15:50

Tendon transfers for median nerve palsy

L. Katranitsa

15:50 - 16:00

Discussion

GENERAL INFORMATION

■ Date & Venue

April, 4th - 6th 2024

Workshops

Laboratory of Anatomy and Surgical Anatomy of Aristotle University of Thessaloniki
University Campus, Thessaloniki, Greece, Tel.: 0030 2310999305, anatomylab.web.auth.gr

Lectures

Teloglion Foundation of Fine Arts
Agiou Dimitriou 159A, Str., Thessaloniki, Greece, Tel.: 0030 2310 991377, www.teloglion.gr

■ Official language

English will be the official language of the Seminar and no simultaneous translation will be provided.

■ CME accreditation

The Seminar has been granted with **21 ECMECs** by the EACCME.

■ Certificate of attendance

The certificates will be sent by the end of the Seminar and as soon as the evaluation form will be submitted to the Seminar Secretariat.

■ Presentations

Available audiovisual equipment for all presentations will be through power point presentation. For power point presentations, your presence to the "technical reception desk" is required one hour prior to the time of your presentation in order to check the compatibility of your usb stick. Use of personal computers will not be permitted.

■ Exhibition

Within the Seminar area there will be an exhibition of medical equipment and pharmaceutical products.

TRAUMA SOLUTIONS ON THE MOVE

With the **A.L.P.S.® Proximal Humerus Plating System**, Zimmer Biomet builds on the principle of Spatial Subchondral Support to deliver a solution with two plating options that are designed to minimize the risk of varus collapse.

- Two plating options based on fracture pattern and surgeon preference
- Three-dimensional scaffold, designed to resist varus stress
- Blunt end pegs designed to minimize articular surface screw penetration.

To learn more, contact your local Zimmer Biomet sales representative.
